SUMMARY

A career driven, full stack web developer, skilled in taking difficult, sometimes impossible circumstances, and turning them into golden opportunities. Extensive experience in team building, molding thriving work environments, and accomplishing goals in a timely manner. A forever student, always looking for ways to improve myself personally and in the technologies around me.

TECHNICAL SKILLS

HTML | CSS | JavaScript | Node.js | Express | React | MongoDB | MySQL
Git | Bootstrap | JQuery | Firebase | AJAX | JSON

PROJECTS

Name: 50-States | **Github:** github.com/seanmrudd/50-States

Deployment: <https://gentle-fortress-14195.herokuapp.com/>

- A time based trivia game that tests your knowledge of the 50 states and their capitals. Leaderboards and difficulty settings included.
- Responsible for all front-end and back-end development.
- MERN stack, passport, and bcrypt.

Name: Doomsday | **Github:** github.com/seanmrudd/doomsday

Deployment: <https://tragically-toque-74147.herokuapp.com/>

- A message board app where you can create doomsday scenarios and write up plans to combat those scenarios.
- Worked with one other collaborator on setting up the database, server, and API calls. Also assisted with the front-end functionality.
- Express, MySQL, Node.js

EXPERIENCE

Multi-Unit Manager

2007-present

Moe's Southwest Grill

Orlando, FL

- Grew comp sales at all three of my locations, averaging over 5%.
- Opened one of our most successful locations, comping positive 11% over first year.
- Direct store managers in fulfilling their obligations in running successful stores.
- Operated alongside regional manager, catering director and corporate consultants to push our stores forward in an ever-changing market.
